

National Deaf Children's Society

# Roadshow

On Thursday 19th January 2023 the NDCS Roadshow team visited our school to do some workshops with our deaf pupils. In the morning we focused on our skills and future aspirations.

The day was led by a deaf man called Luke who communicated using sign language and had a BSL interpreter to change everything he signed into speech.

One of the workshops included exploring deaf technology that could be useful for us to use at home. This included vibrating alarm clocks and flashing doorbells.

These photos are from one of the tasks where we had to work as a team to make a Giraffe out of newspaper!
