

## See It, Be it Project

Our base was chosen to take part in a project about deaf careers ran by the company 'Toy like me' who make cochlear implants and hearing aids for teddies and dolls, as well as toys with other disabilities.

We kindly received careers resources from them including huge display boards with lots of pictures with deaf people and their job titles.

Our pupils enjoyed learning about what each deaf person did and thinking about the skills needed for that job. We also thought about what we wanted to do as a job in the future, and the steps needed to get there.
