

Y7 are currently studying B1.3 (Reproduction) and C1.3 (Reactions), some may have moved onto C1.4 (Acids and Alkalis). Students can follow these units here; <https://continuityoak.org.uk/Lessons#>

Students will need to select KS3 Science on the left, then select the correct unit.

Y8 are currently studying B2.2 (Ecosystems), B2.3 (Adaptations and Inheritance), C2.3 (Metals and Acids) and C2.4 (Planetary Geology). Students can follow these units here; <https://continuityoak.org.uk/Lessons#>

Students will need to select KS3 Science on the left, then select the correct unit.

Y9 are currently studying P2 (Electricity) and C10 (Earths Resources) and C1 (Atoms). Students can follow these units here; <https://continuityoak.org.uk/Lessons#>

Students will need to select KS4 Science on the left, then select the correct unit.

Y10 are currently studying B7 (Ecology) in biology, C2 (Bonding, Structure and the Properties of Matter) in chemistry and P5 (Forces) in physics. Students can follow these units here; <https://continuityoak.org.uk/Lessons#>

Students will need to select KS4 Science on the left, then select the correct unit.

Y11 are currently revision after finishing content. Students can select units to revise here; <https://continuityoak.org.uk/Lessons#>

Students will need to select KS4 Science on the left, then select the correct unit.

Other revision options are videos on Youtube (channels such as primrose kitten, science shorts, physics online ect).

Past papers and mark schemes for all sciences and maths can be found on “Physics and maths tutor”.

For any other revision ideas or materials, students can see their science teachers.

Y12 & 13 – Post-16 students will be sent work by their teachers to complete
